

JEFFERSON COUNTY DRAINAGE DISTRICT NO. 6
Karen J. Stewart, MBA, CTP Business Manager: Purchasing Agent

6550 Walden Rd., Beaumont, Texas 77707 Phone: 409-842-1818 Fax: 409-842-2729

IFB Number: IFB 16-016/KJS
IFB Title: Needmore Diversion Saltwater Barrier Dredging Project
IFB Due: **2:00 PM, CST, Thursday, December 15, 2016**
Addendum No.: 1
Issued (Date): December 2, 2016

TO BIDDER: This Addendum is an integral part of the IFB package under consideration by you as a Bidder in connection with the subject matter herein identified. Jefferson County Drainage District No. 6 deems all sealed bids to have been proffered in recognition and consideration of the entire IFB package – **including all addenda**. For purposes of clarification, **receipt of this present Addendum by a Bidder should be evidenced by returning it (signed) as part of the Bidder's sealed proposal**. If the Proposal has already been received by the Jefferson County Drainage District No. 6 Purchasing Department, Bidder should return this addendum in a separate sealed envelope, clearly marked with the IFB Name, IFB Number, and Opening Date and Time, as stated above.

Reason for Issuance of this addendum:

1. Provide provisions for the possibility of partial payment.
2. Limit the allowable amount of the mobilization/demobilization bid.
3. Require information to be submitted along with the bid to help evaluate the bidder's qualifications and work plan.

ADDENDUM NO. 1

(IFB 16-016/KJS)

1. Modification of “Payment and Completion of Work,” page 11, Section 28.

As written, the bid documents provide for payment at completion of project based upon a final after dredge survey to be performed upon completion of the project, with payment to be made based upon the final after dredge survey.

This addendum modifies the “Payment and Completion of Work” provision, and will allow the contractor to make a one-time request for a partial payment during the project.

After the contractor has been on-site performing excavation for at least 30 work days AND has completed at least an estimated 40% of the excavation, the contractor may request DD6 acquire a post dredge survey performed by Naismith Surveyors, at DD6’s expense, that calculates the volume of work accomplished. The contractor may submit an invoice to DD6 for partial payment, accompanied with the partial post dredge survey performed by Naismith Surveyors. DD6 will make a payment at that time equal to 90% of the Naismith calculated volume plus 50% of the mobilization/demobilization bid. The volume partial payment will not exceed 63% of the total plan quantity. As an example, if contractor requests partial payment, and 80% of the excavation is determined to have been completed, DD6 will only pay contractor the 50% of mobilization cost, plus 63% of the volume payment. The remaining volume payment, as well as the remaining mobilization payment, will be included with the final payment.

If the partial payment Naismith post dredge survey shows sectors of the work completed to the specified design, then that sector will be accepted as completed and no further work will be done, nor will further payments be made, for that sector. Determination of DD6’s acceptance of the completion of the sector must be in writing, and must be made by DD6’s engineer.

Only one partial payment will be allowed during the project. The final payment will be performed after the remaining work has been completed, as outlined within the “Payment and Completion of Work” provision.

2. The total amount of mobilization/demobilization bid item shall not exceed 20% of the total bid price.

3. In addition to items described in the bid specifications within “Award,” page 5 Section 6, DD6 requires the contractor to submit, along with its bid, the following information in a separate sealed envelope:

- Three references from similar projects;
- A five-year work history; and
- A detailed work plan which describes the methods to be used, the types of equipment to be used, and the size of the dredge.

The submitted information will help DD6 evaluate the bidder’s qualifications, work plan, and will assist in the evaluation of the bid.

REVISED ADDENDUM NO. 1 BID SHEET

NEEDMORE DIVERSION SALTWATER BARRIER DREDGING PROJECT

Opening at 2:00 PM, CST, Thursday, December 15, 2016

ITEM BID: Needmore Diversion Saltwater Barrier Dredging Project
(Meeting Specifications) _____ YES _____ NO
If Not meeting Specifications, please explain why on a separate piece of paper.

1.

Line No.	Base Bid Description	Minimum Estimated Quantity	Base Bid Unit Price Per Cubic Yard	Total Price of Base Bid
1	Needmore Diversion Saltwater Barrier Dredging Project Base Bid	7,709 Cubic Yards of Silt above elevation -14	\$	\$
2	Needmore Diversion Saltwater Barrier Dredging Project Base Bid	22,776 Cubic Yards of Clay below elevation -14		

Line No.	Alternate Bid Description	Minimum Estimated Quantity	Alternate Bid Unit Price Per Cubic Yard	Total Price for Alternate Bid
3	Needmore Diversion Saltwater Barrier Dredging Project Additive Alternate Bid	25,157 Cubic Yards of Silt and Clay (Predominately Hard Clay) -18	\$	\$

Line No.	Description	Firm Price
4	Mobilization/Demobilization Includes all costs associated with the mobilization and demobilization of all material, equipment and man power to project site	\$

* Note: Actual Payment amount will be based upon actual cubic yards of material dredged as determined by Before and After dredge surveys taken in the Needmore Diversion Channel and the GIWW by Naismith Marine Surveyors

2.

Bid Bond Included _____ **YES** _____ **NO**
